EZ-ZONE® PM Controllers
Take the Pain Out of Meeting Your Thermal Loop Requirements

The EZ-ZONE® PM panel mount controller from Watlow® offers control options to reduce system complexity and the cost of thermal loop ownership. It can be ordered as a PID controller, an over/under limit controller or its functions can be combined into an integrated controller. An option to integrate a high amperage power controller output with a high-performance PID controller and an over/under limit controller in one space-saving, panel mount package is also available. Many communication options are offered to support connectivity needs.

Because the EZ-ZONE PM controller is highly scalable, you pay only for what is needed. This controller is available in 1/32, 1/16, 1/8 and 1/4 DIN panel mount packages. The EZ-ZONE PM controller is easy to use and is ideal for PID, over/under limit or integrated controller needs.

Watlow’s EZ-ZONE PM is available through Watlow SELECT®, a program that enables you to quickly identify, configure and receive your thermal products faster and easier than ever before. With SELECT, you use a variety of tools to guide your decision, configure products for an exact fit and quickly receive your order. Visit www.watlow.com/select to learn more.

Features and Benefits

Integrated PID and limit controller
- Reduces wiring time and termination complexity compared with connecting discrete products
- Decreases required panel space
- Lowers installation costs
- Increases user and equipment safety for over/under temperature conditions

Current monitoring
- Detects heater current flow and provides alarm indication of a failed output device or heater load
- Drives output on open or shorted heater

Serial communication capabilities
- Provides a wide range of protocol choices including Modbus® RTU, EtherNet/IP™, Modbus® TCP, PROFIBUS DP, DeviceNet™ and J1939 CAN bus
- Supports network connectivity to a PC or PLC

Enhanced control options
- Easily handles complex process problems such as cascade, ratio, differential, square-root, motorized valve control without slidewire feedback, wet-bulb/dry-bulb, compressor control and peltier loads

EZ-LINK™ mobile application for iPhone® and Android™
- Expedites controller setup with intuitive navigation
- Simplifies setting parameters with plain text names and descriptions
- Connects quickly and easily via Bluetooth® wireless communications

Countdown timer option
- Provides batch process control
- Supports set point change during countdown

10-point linearization curve
- Improves sensor accuracy

Configuration communications with software
- Includes Watlow standard bus communications used by COMPOSER® or EZ-ZONE configurator software
- Saves time and improves reliability of controller setup

Advanced PID control algorithm
- Offers TRU-TUNE®+ adaptive control to provide tighter control for demanding applications
- Provides auto-tune for fast, efficient start-up

Remote set point operation
- Supports convenient set point manipulation from a remote device such as a master control or PLC

Profile capability
- Offers pre-programmed process control
- Allows ramp/soak programming with 40 total steps, battery backup and real time clock

Retransmit output
- Supports industry needs for recording

Factory Mutual (FM) approved over/under limit with auxiliary outputs
- Increases user and equipment safety for over/under temperature conditions

Agency approvals: UL® listed, CSA, CE, RoHS, W.E.E.E., FM, SEMI F47-0200, Class 1, Div. 2 rating on selected models
- Assures prompt product acceptance
- Reduces end product documentation costs

Touch-safe package
- Increases safety for installer/operator
- Complies with IP2X requirements

Programmable menu system
- Reduces setup time and increases operator efficiency

Three-year warranty
- Provides product support and reliability
Specifications

Controller
- User-selectable heat/cool, on-off, P, PI, PD, PID or alarm action, not valid for limit controllers
- Auto-tune with TRU-TUNE+ adaptive control algorithm
- Control sampling rates: input = 10Hz, outputs = 10Hz

Profile Ramp/Soak - Real Time Clock and Battery Backup
- 4 profiles, 40 total steps
- Accuracy (typical): ±30 PPM at 77°F (25°C)
- Battery type/typical life: lithium, three cumulative years

Isolated Serial Communications
- EIA 232/485, Modbus® RTU
- EtherNet/IP™/Modbus® TCP
- DeviceNet™
- PROFIBUS DP
- SAE J1939 CAN bus

Wiring Termination—Touch-Safe Terminals
- Input, power and controller output terminals are touch safe, removable, 12 to 22 AWG

Universal Input
- Thermocouple, grounded or ungrounded sensors greater than 20MΩ input impedance, 3μA open sensor detection, 2kΩ source resistance max.
- RTD 2- or 3-wire, platinum, 100Ω and 1000Ω @ 32°F (0°C) calibration to DIN curve (0.00385 Ω/Ω/°C)
- Process, 0-20mA @ 100Ω, or 0-10VDC @ 20kΩ, 0-50mV at 20MΩ, 0-1000Ω potentiometer; scalable; inverse scaling

2 Digital I/O (ordered with power supply option)
- Update rate: 10Hz
- Input type: user-selectable, dc voltage or dry contact
- Output type: switched dc
- Output voltage: 24V
- Output 5: 24mA max. or drive one 3-pole DIN-A-MITE®
- Output 6: 10mA max.

6 Digital I/O (ordered with communications option)
- Update rate: 10Hz
- Input type: user-selectable, dc voltage or dry contact
- Output type: user-selectable, switched dc or open collector
- Switched dc output voltage: 12 to 24VDC, depending on current draw
- Switched dc max. supplied current: 40mA at 20VDC and 80mA at 12VDC

Operational Interface
- Dual 4-digit, 7-segment LED displays
- Advance, infinity, up and down keys, plus a maximum of 2 programmable EZ-KEY(s) depending on model size
- Typical display update rate: 1Hz
- RESET key substituted for infinity on all models with limit controller

Line Voltage/Power
- High voltage option: 85 to 264VAC, 47 to 63Hz
- Low voltage option: 20 to 28VAC, +10/-15%; 50/60Hz, ±5% or 12 to 40VDC
- Max. power consumption: 10VA (/1/32 and /1/16 DIN); 14VA (/1/8 and /1/4 DIN)
- Data retention upon power failure via nonvolatile memory
- Compliant with SEMI F47-0200, Figure R-1 voltage sag requirements @ 24VAC or higher

Environment
- Operating temperature: 0 to 149°F (-18 to 65°C)
- Storage temperature: -40 to 185°F (-40 to 85°C)
- Relative humidity: 0 to 90% RH, non-condensing

Agency Approvals
- cULus® UL®/EN/CSA C22.2 No 61010-1 Listed, File E185611
- CSA C22.2 No. 24, File 158031 (/1/32 and /1/16 DIN sizes)
- UL® 50 4X indoor locations, NEMA 4X, UL® 50E, Type 4X front seal
- FM Class 3545
- NEMA 4X, UL® 50E, Type 4X front seal
- CE, RoHS by design, W.E.E.E.
- EtherNet/IP™ and DeviceNet™ ODVA Conformance Tested

**Compatible Accessories**

More information is available on these products at [www.watlow.com](http://www.watlow.com)

Watlow’s new EZ-LINK app allows users to easily setup, monitor and adjust Watlow EZ-ZONE PM controllers via Bluetooth®. The app is available free-of-charge from the app store for phones and tablets, and provides access to the controller’s parameters with fully spelled out names in plain text with help topics that explain each parameter and option. EZ-LINK mobile application connects quickly and easily via Bluetooth® wireless communications. Download the EZ-LINK App for Android™ or for iPhone®.

**COMPOSER with INTUITION®** is Watlow’s new, easy-to-use software for configuring and customizing controllers. Use it to optimize Watlow’s F4T and EZ-ZONE PM and RM controllers for specific applications. Task-specific views simplify all aspects of commissioning new controllers including managing the inputs and outputs from pluggable flex modules, setting up functions such as control loops and alarms and creating and editing profiles. COMPOSER software is included on the “Watlow Support Tools” DVD and available for download at [www.watlow.com](http://www.watlow.com).

**SpecView** is designed for industrial users with features such as data logging, trending and support for bar code readers and touch screens. Errors are reduced, for any process, by creating application-specific screens. The software provides a historical replay option, easy-to-use recipe features and remote access options, including LAN, Internet and modem.

Silver Series EM touch screen operator interface terminals provide a customizable user interface, email event notifications and log and graph data for Watlow controllers and other devices. A Silver Series EM operator interface terminal paired with Watlow controllers is the perfect solution for your industrial process or machine control application.

#### Package Size

- 3 = 1/32 DIN
- 6 = 1/16 DIN
- 8 = 1/8 DIN vertical
- 9 = 1/8 DIN horizontal
- 4 = 1/4 DIN

#### Primary Functions

Options B and E are not available with 1/32 DIN (PM3) or 1/16 DIN (PM6) models

- C = PID controller with universal input
- R = PID controller with universal input and profiling ramp/soak
- B = PID controller with universal input and profiling ramp/soak and battery back-up with real time clock
- T = PID controller with universal input and countdown timer
- J = PID controller with thermistor input
- N = PID controller with thermistor input and profiling ramp/soak
- E = PID controller with thermistor input and profiling ramp/soak and battery back-up with real time clock
- S = Custom firmware

#### Power Supply, Digital Inputs/Outputs (I/O)

- 1 = 100 to 240VAC
- 2 = 100 to 240VAC plus 2 digital I/O points
- 3 = 20 to 28VAC or 12 to 40VDC
- 4 = 20 to 28VAC or 12 to 40VDC, plus 2 digital I/O points

#### Output 1 and 2 Hardware Options

PM3: CH and KH are not valid options for 1/32 DIN package type

#### Communication Options

Standard bus always included

- A = None
- B = Bluetooth® (1/16 DIN models only)*
- E = EIA 485 Modbus® RTU & Bluetooth® (1/16 DIN models only)*
- J = EIA 485 Modbus® RTU

*Note: Bluetooth® not available in all countries, contact factory.

#### Isolated Input Option

- A = None
- D = Isolated input 1

#### Custom Options

Firmware, overlays, parameter settings

- AA = Standard EZ-ZONE PM face plate
- AB = EZ-ZONE logo and no Watlow name
- AC = No logo and no Watlow name
- AG = Conformal coating
- 12 = Class 1, Div. 2 (not available with mechanical relay Output types E, H or J)

- KL = SSR Form A, 0.5A

### Communication Options or Additional Digital Inputs/Outputs (I/O)

- A = None
- B = Bluetooth* (1/16 DIN models only)*
- C = Enhanced firmware which includes compressor control, cascade, ratio, differential, square-root and motorized valve control without feedback.
- D = 6 digital I/O (not available on 1/16 DIN Models)

### Auxiliary Control Functions

- A = None
- C = 2nd PID channel with universal input - not available on 1/16 DIN models
- J = 2nd PID channel with thermistor input - not available on 1/16 DIN models
- R = Auxiliary 2nd input (thermistor input)
- P = Auxiliary 2nd input (thermistor input)
- T = Current transformer input (not valid Output 3 and 4 selections = FA, FC, FJ and FK)
- L = Integrated limit controller with universal input (only valid Output 3 and 4 selections = CJ, EJ and AJ)

### Output 3 and 4 Hardware Options

- AA = None
- AJ = None
- AK = SSR Form A, 0.5A
- AC = No logo and no Watlow name

### Additional Options

- A = Standard
- C = Enhanced firmware which includes compressor control, cascade, ratio, differential, square-root and motorized valve control without feedback.
- D = Standard with isolated input 1, input 2 is always isolated.
- F = Enhanced firmware with isolated input 1, input 2 is always isolated.

### Custom Options

- AA = Standard EZ-ZONE PM face plate
- AB = EZ-ZONE logo and no Watlow name
- AC = No logo and no Watlow name
- AG = Conformal coating

### Note:

- Bluetooth* not available in all countries, contact factory.
