Watlow® Offers the Silver Series EM Operator Interface Terminal to Give Your System an Easy-to-Use Interface with Email Messaging

The Silver Series EM is a rugged, touch-screen operator interface terminal (OIT). Available in three sizes (4.3, 7 and 10 inch diagonal display sizes), the OITs feature serial and Ethernet communications with multiple controllers, email messaging, universal serial bus (USB host), data logging, flexible password security and multiple languages. The small bezel size and two-inch depth make mounting in tight spots easy.

The Silver Series EM programming software, EZwarePlus, is easy to use and features a large variety of built-in screen objects that make it powerful. When creating screens, the user can call upon extensive graphics libraries, import custom graphics and add numeric displays, entry fields, analog meters, bar graphs and trend graphs with just a few mouse clicks. Screen objects are highly customizable, and the user can create libraries of their own objects for repeat use. The online simulator, Ethernet and USB support make testing and downloading fast. The EZwarePlus screen editor is part of the EZwarePlus software suite and is available as a FREE download on www.watlow.com and on the DVD-ROM found in the accessories list on page six.

The Silver Series EM OIT paired with Watlow® controllers is the perfect solution for your industrial process or machine control application.

Support for over 100 protocols, up to three simultaneously plus multiple protocols over Ethernet
- Connects to a wide range of industrial controllers and devices
- Integrates a variety of devices to simplify complex operation tasks

Data logging, display and trending
- Helps operators monitor processes
- Reduces labor and increases accuracy by automating time-stamped data collection
- Stores captured data for future retrieval in multiple files
- Saves time by exporting data to Excel®-compatible comma separated value (.csv) files
- Improves process understanding by allowing live and historical data to be viewed on the OIT

Alarm and event email notification, monitoring and recording
- Reduces downtime by helping troubleshoot equipment and processes
- Simplifies troubleshooting by recording time and date-stamped alarm and event history
- Organizes and prioritizes alarms and events in up to 255 categories and four priority levels

Recipe management
- Reduces errors by automating process setting changes

Offline and online simulation
- Speeds up development by making it faster and easier to test projects
- Allows faster creation of fine-tuned interfaces by speeding up iterations

Time or trigger-based data exchange
- Simplifies integration by allowing the OIT to copy data from one controller or OIT to another

Internal, piezoelectric buzzer
- Provides audible alarms and key chirp

Two-year warranty
- Provides product support and reliability
Features and Benefits (cont.)

Screen object password security with programmable hierarchy and multiple users
- Prevents errors and tampering by allowing only authorized users to access restricted items on the screen
- Allows flexible hierarchies by letting the developer assign each screen object to any of 12 groups and grant each user access to any combination of groups
- Provides password protection for upload, download and access to local setup
- Supports up to 127 users

Screen object invisibility and/or interlock control
- Prevents errors by guiding operators

Powerful, easy-to-use EZwarePlus programming software
- Requires only a small investment in time to create a useful interface
- Provides the ability to learn additional features as needed
- Provides advanced interface features such as animation and pop-up windows

- Reduces development time by providing extensive graphical libraries and facilitating reuse with user-created libraries
- Simplifies development by allowing import of common graphic formats: bitmaps, JPEGs and animated GIFs

User-programmable macros with math functions and support for floating point
- Extends functionality
- Automates processes

TrueType fonts with Unicode (international) characters and language switching feature
- Makes screens easy to read by allowing bold, italic, underlined, scrolling and blinking text to direct operator’s eyes
- Prevents errors by communicating with users in their native languages
- Reduces development and support by allowing inclusion of up to 24 user-selectable languages in a project

UL®, NEMA 4, CE, RoHS
- Allows use in harsh industrial environments
- Assures prompt product acceptance

Integrate multiple devices to simplify operation of complex systems.

Include the types of displays users understand such as gauges, sliders and bar graphs to make screens intuitive.

Log and graph process data for quality records and better process control.

Create screens that guide work flow.

### EZwarePlus Software System Requirements

**Compatible Operating Systems:**
- Windows® 10, 8.1, and 7

---

EZ-ZONE® and Watlow® are registered trademarks of Watlow Electric Manufacturing Company.
Excel®, Microsoft® and Windows® are registered trademarks of Microsoft Corporation.
Modbus® is a registered trademark of Schneider Automation Incorporated.
EZwarePlus and its related software, copyright ©2014 Weintek Labs, Inc.
Used with permission from Maple Systems, Inc and Weintek Labs, Inc. 2014
EZwarePlus Software Suite
The EZwarePlus software suite includes EasyConverter, EZwarePlus screen editor, Utility Manager and Recipe Editor programs.

Utility Manager uploads and downloads projects to and from the Silver Series EM OIT, opens compiled projects in simulation and launches the other EZwarePlus programs.

The Recipe Editor configures memory files for use with Silver Series EM OITs and allows offline creation of recipes.

EasyConverter converts log files saved by the Silver Series EM OIT to file formats used by popular Windows® software such as Microsoft® Excel.

EZwarePlus provides a graphical screen designing environment with point-and-click access to features and drag-and-drop ease.
Connectivity

Silver Series EM connects via...

- **RS-232**
  - to one Watlow EZ-ZONE® product equipped with Modbus® RTU or one third-party product via a supported protocol.

- **RS-485**
  - to one or more Watlow EZ-ZONE products equipped with Modbus® RTU or one or more third-party products via a supported protocol.

- **Ethernet**
  - to Watlow EZ-ZONE products equipped with Modbus® TCP and third-party products via supported protocols.
