The SERIES EHG® SL10 integrated, multi-function controller from Watlow® is a key component to a powerful system that includes a heater, an adjustable set point temperature controller, a high/low temperature alert, a power switching device and a high temperature safety limit. Its agency recognized controller/safety limit meets UL® 1998 and CE 60730 requirements.

An optional display/communications module can be easily added in the field to provide a digital display indication, an adjustment of set point, RS485 Modbus® communications and other Human Machine Interface (HMI) features. As a scalable system, only what is needed can be purchased.

The EHG SL10 controllers’ easy to install, compact design, inherent reliability and integrated limit functions offer unmatched value. It is designed for easy integration with Watlow heaters to simplify engineering, reduce component count for new equipment and decrease ownership cost.

For original equipment manufacturers (OEMs), the EHG SL10 controller’s CE, Semi-S2 compliance and UL® recognition reduces time and costs associated with global agency testing and validation. U.S. Patent Number 8,044,329

**Typical Applications**
- **Semiconductor processing**
  - Gas delivery lines
  - Exhaust lines

- **Life sciences**
  - Laboratory equipment
  - Medical equipment

- **Foodservice equipment**
  - Warming and serving equipment
  - Food holding cabinets

- **Packaging**
  - Heat sealing bars
  - Hot glue application equipment

**Features and Benefits**
- **Process controller and safety limit in one package**
  - Meets UL® 1998 and CE 60730 requirements
  - Eliminates the need for a thermal fuse on a heater
  - Eliminates replacement of heater when fuse fails

- **Optional display/communications module**
  - Allows easy upgrade on to base device
  - Offers low cost field upgrade
  - Provides easy, snap-on installation

- **Accurate and flexible temperature process controller**
  - Replaces problematic bi-metal thermostats with accurate electronic temperature process controller
  - Allows easy change of process parameters

- **Ambient operating temperature range 32 to 158°F (0 to 70°C)**
  - Increases reliability when mounting in harsh temperature environments or in close proximity to heaters

- **Integrated high/low temperature alert signal relay**
  - Provides dry contact output to activate external alarm or process function
  - Signals control status with three integrated LEDs
  - Allows a signal of up to two amp 30VAC/VDC, Form A to alert if process temperature is out of range limits

- **Health check diagnostics**
  - Monitors maximum heater process temperature, maximum ambient temperature and thermocouple operation
  - Provides health check signal to inform operator that the process is working correctly
Features and Benefits (con’t)

Universal power supply
- Allows an input of 85 to 264VAC, 50/60Hz
- Provides safe control of up to 2400 watts with 10 amperes switching in both controller and safety limit

Can be switched from on-off and PID algorithm
- Increases product life (on-off control is default)
- Offers selectable PID control algorithm for tighter temperature uniformity

Universal 1/8 turn mounting bracket
- Allows mounting to most surfaces
- Provides flexible mounting—either horizontally or vertically

Specifications

Operational
- Two, Type K thermocouple inputs - process temperature control and safety limit
- Process temperature output - 10A NO-ARC relay
- Safety limit alarm - 10A relay
- High/low temperature alert - 2A 30VAC/VDC, Form A (single pole, normally open contact)
- On-off temperature controller algorithm, upgraded via communications to PID algorithm (min. cycle time 30 seconds)

Standard Molex® connectors
- Controllers are integral to the heater and are supplied by Watlow

EHG SL10 Versus Thermostat
(Typical Application)
**EHG SL10 Software**

With the addition of an optional communication module, the EHG SL10 can be managed, monitored and manipulated via software. Change set points, label devices, change tuning parameters, check health status and much more all with the click of a key. Obtain your free copy today at www.watlow.com.

---

**Optional Upgrade Modules**

These upgrade modules are easy to install because there is no need to reconfigure, rewire or reorder the base unit. No technician is needed for the installation, which creates a seamless, cost-efficient system that can be upgraded.

The EHG SL10 can be “daisy-chained” for gas line and other assemblies.

Mounting Bracket

The EHG SL10 mounting bracket lets you mount the controller in any of four angles.

Additional cables for wiring parallel heater circuits (daisy-chaining) in gas line and other assemblies

- 4800-0012 - Long cable
- 4800-0022 - Long terminating cable
- 4800-0011 - Short cable
- 4800-0021 - Short terminating cable

Availability

The EHG SL10 is available for shipment; please contact your Watlow representative for more information.
